

The Use of Personal Information Collected Through the Security Camera Systems of the Company's Facilities

September 24, 2025

Nankai Electric Railway Co., Ltd.

For railway operations, the operations of the Shopping Center Business, and the provision of incidental services to customers, Nankai Electric Railway Co., Ltd. (hereinafter referred to as the “Company”) collects personal information through the security camera systems of its facilities and uses such personal information for the following purposes:

1. To provide a safe, secure and comfortable environment within our facilities
2. To prevent crime and to protect our facilities
3. To analyze data to improve and enhance our services for such purposes as easing congestion
4. To improve the quality of our services and products as well as for safety and security measures, and to conduct related investigations, analysis and research and development

To facilitate these activities, the Company may outsource part of them to its Group companies, information processing companies, cooperative companies or other organizations.

In such cases, the Company may share recorded images with these outsourcing providers to the necessary extent.

When doing so, the Company will execute an agreement on the handling of personal information with them and appropriately supervise them. In addition, recorded images will be processed into anonymized personal information before they are shared with them.
